

St. Patrick COVID-19 Helpline

A Team of your fellow Parishioners has created two new resources to assist you in these challenging times.

1. A number to call if you need help in navigating your way to and through the healthcare system
2. A number to call if you need help after being diagnosed with the virus to bring you a delivery which you have already ordered and purchased from a grocery store or drug store

How to use the call-in line if you don't feel well:

- Brooke Perlik, a certified Physician's Assistant, and a member of our Parish Family, has offered to talk to you if you need help in navigating your way through the healthcare system
- Brooke is available after 9:00 am until 9:00pm.
- Brooke can be reached on: 216.410.5578

How to use the call-in line if you need some one to bring you your previously ordered and paid for groceries or medicines:

- Please feel free to call to volunteer to do pick up and make deliveries, or if you need help because you cannot go out
- Call Deacon Bob or Phil (10:00 am to 6:00 pm)
 - Deacon Bob: 440.968.3239
 - Deacon Phil: 440.254.4270
- Your Deacons will daily coordinate volunteers and those in need so that deliveries can be made
